

VERSION ORIGINALE

The alchemy of authenticity
and sensoriality

Dreamed up in Provence, the Version Originale collection comprises hand and body products enriched with organic olive oil, candles crafted from 100% plant-based wax and fragrance diffusers.

It's a collection that embraces three criteria: hi-tech formulation, pleasure for the senses and aesthetics.

Inspired by a desire to stir the olfactory imagination, each of the four fragrances combines notes from lands near and far, captured in amber-toned bottles, candles and tubes with a simple yet stunning design.
